The bond issue approved by the voters of the district for the hospital project was $1,150,000 which was to include the architect fees, bond sale costs, interest and equipment.

Once the bid is accepted and the contract awarded, 504 days will be allowed for completion of the project.

Sierra Pacific Gets Order To Reduce Rate In California

SAN FRANCISCO—The California Public Utilities Commission has directed Sierra Pacific Power Company, headquartered in Reno, to reduce rates of 13,580 California customers a total of $106,425 per year. The new rates, to become effective starting March 31, are for all domestic and power-agriculture customers using 50 kilowatt hours or more per month.

Sierra Pacific provides electric service around the shores of Lake Tahoe, in Truckee and vicinity and between that city and Reno, and also in Portola, Loyalton, Markleville, Topaz and Coleville.

The reduction results from a change in taxes and accounting due to taking liberalized depreciation for federal income tax calculation.

There will be a reduction of 7.7 per cent or $100,000 per year for 11,855 residential customers on schedule D-1 (A).

Junior Chamber For Area Is Proposed

The board of directors of the Grass Valley Junior Chamber of Commerce has written the Truckee-Donner Chamber, relative to the possibility of establishing a junior chamber in this area.

The letter, written by Dick Warriner, president of the junior chamber at Grass Valley, points out that inquiries have been received from young men in this community regarding the proposal and that they are willing to assist in developing the idea.

They seek someone in the Truckee-North Tahoe area interested in civic and community development who would meet with the extension committee for preliminary details following which young men between the ages of 21 and 36 would be contacted and an organizational meeting arranged.

The Truckee-Donner Chamber is expected to take the matter up at the next regular meeting.

Park District Gets More Land From Sierra Power Co.

Through the efforts of Frank Giovannoni, local manager for the Sierra Pacific Power Company, the Truckee-Donner Park and Recreation District has acquired an additional 17 acres of land adjoining their present park site just south of the Truckee river, owned by the power company.

A 15-year lease on the land was negotiated by Giovannoni for the total sum of $1.

The land is located adjacent to property being developed into a recreation park and the addition gives the district a t otal of 34.2 acres located on the Brockway shortcut. The first land acquired was from the Truckee Sanitary District on which a 50-year lease, with an option for an additional 50 years, was obtained for $500 for the first four years and $1 a year thereafter.

Loyd Hoofard, director of the district, said plans call for the development of a baseball field, tennis courts and other recreational facilities.

Tahoe May Reach Limit This Year

TAHOE CITY—For the first time in many years, Lake Tahoe may fill to its legal brim this season.

Robert Miller of the state department of water resources said a March 1 snow survey report for the Truckee river indicates the lake will rise nearly two feet from April 1 through the spring snow runoff period. This, he said, will put the level at its legal maximum elevation if the gates at the outlet are kept closed.

While some property owners are alarmed over the prospect, claiming that wave action with the high water may cause property damage, Claude Dukes, federal water master in charge of lake storage, said "there isn't much anyone can do about it as long as we keep within legal limits." He addded that the situation will be watched carefully "because we don't want to see anyone's boat dock damaged or under water."

SUNBEAMS

By WALTER M. BARRETT

A suggestion that the road standards in Nevada County be downgraded to conform with the so-called Shasta County point system, would be ignored by the Nevada County Board of Supervisors. The system may be very well for Shasta County and may have merits, but from current observations it must be admitted that the present standards in this county should definitely be upgraded and not downgraded, as the suggestion implies. This is especially true to the Truckee-Donner area, where hard winters play havoc with the roads. The county planning commission made an extensive study of the point system and found that it was not applicable in Nevada County. The commission recommended that if any change was to be made in the road system it should be only after obtaining the advice of a competent engineer. There undoubtedly has been pressure applied to the board to permit easier and less costly development of roads which would become a part of the county system, but in the long run, if adopted, this system would be costly to the taxpayer. The county would be required to maintain the roads once they are accepted and lower standards of construction would eventually prove a real problem.

Carl H. Winston, Jr., 34, a San Francisco newspaperman, was fatally injured at 2:30 a. m. Monday when his light sports car got out of control in Pino Grand at Tahoe Vista and overturned on the highway.

The vehicle caught fire and was destroyed although the North Tahoe Fire Protection District equipment was called to assist. William Rapier of the Truckee Colonial Mortuary, who was called to take charge of the body, said Winston died almost instantly and that the fire had nothing to do with his death.

Winston resided in San Rafael but was employed on the News-Call Bulletin as a copy reader. Officers N. R. Hodkins and A. E. Fisk made the investigation and said excessive speed was indicated as the cause of the accident.

Winston is survived by his wife and four children. His father, Carl Winston, also on the staff of the News-Call Bulletin, also survives.

TAHOE FILL PLAN IS NOT GIVEN APPROVAL

AUBURN—A plan to fill in several acres of northern Lake Tahoe for a housing development has received a cool reception from four of Placer County's six Planning Commission members.

They said after the commission meeting Friday that if the full proposal had come to a vote, they would have voted against it.

The plan calls for a filled peninsula for a 42-unit subdivision near the site of the old Tahoe Tavern. The developers, Tahoe Tavern Properties, Inc., proposed a compromise plan which would reduce the length of the filled peninsula from 500 to 150 feet.

Sewer Authority To Embrace Area Is Given Approval

The formation of a super agency comprising all the various sanitary districts from the Nevada state line at Kings Beach to and including Truckee has been given tentative approval by the directors of the districts and others concerned.

The plan was explained to a meeting of officials at Tahoe City last Thursday by Robert Casey, an attorney employed by Placer County to study the growing problem.

Casey explained the proposed sanitation authority under which the super agency could be formed and said that the authority would be a financing and operating vehicle for accomplishing a job which is beyond the capabilities of the individual districts.

Oliver Crose, clerk of the Truckee Sanitary District, who attended the meeting, said the authority would include Truckee and that steps are being taken to bring Donner Lake into the program.

At the next meeting of the Truckee Sanitary District on April 6, the matter will be aired and everyone interested is invited to attend and hear details and enter protests if there be any.

Don Anderson of Engineering Science, Inc., outlined three alternate plans for the export of sewage

Enchanting Story Set For Executives Club Dinner Meet

An enchanting tale of storied Hunza Land, that fertile little valley located high in the Himalayan mountains in West Pakistan, will be unfolded for members of the Reno Executives Club when they meet for dinner Wednesday evening, April 7, at the Riverside Hotel.

Bringing the exciting facts of this "valley of eternal youth" will be Renee Taylor who with Dr. Allen E. Banik wrote the best selling book. "It's Nothing," recites Miss Taylor, "for persons to live to be 120 years old and to remain hale and hearty for much of their years. I've actually seen men over 80 years old playing polo and womenfolk equally as old retain their youthful appearance and look no older than our ladies of 40."

April Fools Days Brings New Tax

SACRAMENTO — (CNS) — Motorists in California marked April Fool's day by paying 1 cent more a gallon for gasoline, under an emergency gax tax increase to provide funds to repair flood-damaged roads in northern California.

The assembly voted 59-8 for the bill Tuesday, SB268 by Senator Randolph Collier, D-Yreka, which provides for the one-cent increase in the tax from April 1 through December 31.

It is estimated the gas tax hike will produce $58 million in additional revenues. Of this total, $35 million would be spent on state highways and bridges and $$23 million would go for county roads and city streets damaged in the Christmas week floods.

State Auto Assoc. Gives Drivers Tips

Last year one out of every four motorists received a traffic citation. Many unpleasant experiences resulted because the driver lost his temper or was not familiar with traffic arrest procedures. The California State Automobile Association recommends the following steps if you are stopped by a police officer:

1. Don't argue with the arresting officer. Don't threaten him. Don't lose your temper.

2. Keep calm and discuss your side of the situation sensibly. If it is a minor violation or a borderline infraction, the arresting officer may let you go with a warning.

3. If you are given a citation by the officer, he will ask you to sign it, (this applies in California). Signing the citation is not an admission of guilt, merely your promise to appear in court and usually within 11 days.

If you feel that you are guilty of the violation charged, you can ascertain the amount of bail from the court in which you are cited, and you may send this amount to the court. No personal appearance is then required.

If you appear in court and plead guilty, you can explain to the court any circumstances which you may feel might be in litigation of the offense charged, or you can appear on the date set and plead not guilty.

Candidate Explains Needs For Schools

At a meeting held recently at Sunnyside Lodge, Margaret Birmingham, candidate for election to the Tahoe Truckee Unified School District Board of Education stated that a good school program must be sufficiently varied so each youngster can find stimulation, challenge and help at his particular level of ability, interest and maturity. She stressed that the Board of Education should continually evaluate the educational program to assure that the program will progress from recent developments of new teaching methods and improved subject matter. The results of district wide test scores should be carefully examined and if the grade levels attained are on or below the state or national average, the Board should make sure that immediate steps are taken to improve the particular area involved.

Many areas of a strong educational program were discussed are included:

1. Is the present program providing a remedial reading program starting in the lower elementary grades continuing through high school? Many students have difficulty in learning this basic skill and assistance should be provided that students development in other subject matter will not be hindered.

2. Is the present program providing a strong vocational program for students not planning to attend a college or university? These students should be prepared to take their place in the community working in the field most suited for their capabilities and interest.

3. Is the present program giving assistance to students with special problems that hinder their development? A student with a speech handicap, for example, may be reluctant to communicate with teachers and fellow students. This inability or unwillingness to communicate can pose serious problems to the student's ability to learn.

4. Is the present program providing an enrichment program for students with special skills or above average abilities? A student may possess an outstanding interest and creative ability in one or many subjects. The district should be able to provide the direction to further stimulate the growth and development of these students.

She stated that it is the responsizility of the Board of Education to assure that each student receive an education within each student's ability and within the taxpayer's ability to provide such a program. To have a well balanced educational program for the students in the district requires the interest and effort from all concerned.

Plan To Move To Nevada Approved Stockholders Vote

Sierra Pacific Power Company's plan to move its legal residence to Nevada has won overwhelming approval by stockholders of the firm.

Joe L. Gremban, secretary for Sierra Pacific, said there were 1,453,737 shares of stock voted for the plan and only 2,604 against. Final approval of the plan by the Federal Power Commission is still needed before the actual change of legal residence is possible.

The legal procedure by which the move is to be accomplished, according to the plan approved by stockholders, is to merge Sierra Pacific Power Company as a Maine corporation with Sierra Nevada Power Company, a Nevada corporation created for this purpose January 15.

When the merger has been accomplished, Sierra Pacific Power Company as a Nevada corporation will continue operation with no change in its management or business.

Sierra Pacific officials said the plan to move the company's legal residence to Nevada was developed to provide closer relations with stockholders. More than 50 per cent of the company's stock is owned by residents of Nevada and California.

Assembly Bill Will Stop False Grading

SACRAMENTO — (CNS) — Assemblyman Charles B. Garrigus, D-Fresno, said he will introduce a bill to prohibit teachers from giving students false grades.

Garrigus, chairman of the assembly education committee, said a small number of school administrators have ordered teachers to give passing grades to all students, regardless of their actual achievement.

"You don's fool the school children by false grading," Garrigus said. "You're only convincing that child that good working habits don't mean anything, and that is the root of delinquency and dropouts and a host of social problems we face today."

New snow came to the ski slopes last Friday and Saturday, giving the whole area another white coating that should help keep the skiing good for another month.

Forty-one oldsters competed in the Far West Ski Association Veterans Giant Slalom Championships at Dodge Ridge Sunday.

The snow was fast at the top of the 46 gate course and several competitors missed gates or fell trying to negotiatie the tight turns.

We visited Utah and Colorado ski resorts recently for the first time. Barbara and Hal Roberts of San Mateo and Fraser West of Concord were with us. We drove straight through to Vail, Colorado, a new ski area with an Alpine Village atmosphere, where the first American International Team Race was held as a memorial to Buddy Werner, America's leading alpine racer who was swept to his death in a Swiss avalanche in April, 1964.

The Austrian and French teams were strong and provided a tremendous goal for our American team to beat.

One of our hopefuls, Spider Sabich of Kyburz was out of the competition when he fell and broke his leg in practice.

A memorial plaque was presented to the Werner family by Stanley Mullen, U. S. delegate to the International Ski Federation and director of the U. S. Ski Association.

Jimmy Heuga of Tahoe City was hoping to win the slalom event, but placed third behind Jean Claude Killy of France and Heini Messner of Austria. Billy Kidd was 4th. Marielle Goitschel of France won the women's slalom and Linda Meyers 5th.

Jim's parents, Lucille and Pete Heuga were there to attend the events. We also saw Starr Walton of Soda Springs who is now attending a Colorado college, Dick Petersen who ski patrolled at Sugar Bowl for many years and is patrolling at Vail, and Jim Wiggins who managed the cafeteria at Yosemite Lodge, now manages the Vail Lodge.

Final team results were: France, 155 points; Austria, 142 and United States, 82.

We drove on to Aspen, Colorado, for a few days of fun skiing. The weather was bitter cold, however, but the fresh powder snow was perfect for skiing.

Skied Buttermilk area where we saw Johnny Johansen who formerly taught at Soda Springs. It's a great spot for beginning and intermediate skiers. Aspen Highlands and Aspen Mountain have more challenging slopes and long lifts.

The town of Aspen was a thriving mining community in 1888 and many of the buildings have been preserved and used for interesting shops and restaurants. A real tourist town both summer and winter.

Visited with Ed Siegel who was manager at Sugar Bowl but now manages Park City ski area in Utah near Salt Lake City.

Ed and Lois are looking forward to the summer months to start their golf games at Park City.

Attended the Harriman cup races at Sun Valley, Idaho. Karl Schranz flashed from the top of Mt. Baldy down Rock Garden and Exhibition to the middle of River Run in a first place time of 2:01.81. Gerhard Nenning, second and Heini Messner, third, all Austrians. Bill Marlot, Jim Heugar and Billy Kidd placed 8, 10 and 11th in the men's downhill.

Hundreds of people were there to ski and view the races, but one day I had a chance to beat the lift lines by taking a helicopter ride to the top of Baldy. It was a thrill to fly over the courses and see the tiny people far below.

The Jack Starratts of Tahoe City there as were the Pete Heuga's.

NBC television crews were everywhere taking pictures of the races and night life in the Boiler Room at the lodge. A program of the Harriman Cup races will be shown April 11. Check the TV guides for time in your area.

Trader Vic's Tiki race is scheduled for Saturday at Sugar Bowl and the Alexander McFadden slalom will be at Squaw Valley Sunday.

Soda Springs will hold a giant slalom Sunday for juniors.

Roadside Signs To Be Discussed At Hearing April 22

SACRAMENTO — (CNS)—Establishment of regulations to enforce the outdoor advertising restrictions along interstate highways in California will be discussed at a public hearing in Sacramento on April 22.

John Erreca, state director of public works, said the 1964 legislation which set up the restrictions takes effect on May 15 of this year. After that date, the number, type and size of advertising signs which can be installed within 660 feet of rights of way on interstate highways will be limited.

Non-conforming signs erected before July 1, 1964, must be removed by July 1, 1969. Non-conforming signs erected after last July 1 must be removed by May 15 of this year.

New Sticker Good For All Park Areas

National Automobile Club reports that, for the first time this year, motorists can buy a $7 car sticker that will admit them to all national parks, forests, and most other federal recreation areas in the continental United States, where separate fees are usually charged.

The sticker, suitable for a bumper, and good for a full year from April 1, is good only for admittance to federal recreational facilities and does not cover camping and picnic fees.

Reports to NAC from the National Forestry Service, indicate a few exceptions to the use of the sticker, such as controlled areas where user fees are in effect now.

The new annual sticker was created in September, with passage in congress of a Land and Water bill, but the regular permits now in use will still be available.

The annual sticker may be purchased at any national park or forestry service headquarters or supervisor's office, ranger stations and park entrances.

How to save money when the budget says no

Buying U. S. Savings Bonds on the Payroll Savings Plan won't eliminate your monthly bout with the budget. But it *will* guarantee that you won't spend *all* your money before you save some.

Guaranteed—because the money is saved before you ever see it. Your payroll department sets it aside, as much or as little as you say, and puts it into Savings Bonds for you. No memory tests. No temptation.

The minute your Bond is bought, it goes to work for your future. It pays back $4 for every $3 invested at maturity—and even more if you hold it longer. A nice way to make your security grow.

Another nice thing: while your savings are growing, the dollars are helping our nation and our government keep strong for freedom.

Call your payroll department and sign up for the Payroll Savings Plan before next payday. See if you don't feel just a little bit better at bill-paying time.

ENROLLED AT IDAHO

Patricia Shane Wed Bill Thornton Here In Church Rites

Patricia Marie Shane became the bride of William Robert Thornton before a large group of relatives and friends, Saturday afternoon, March 27, at Church of the Mountains in Truckee. Rev. William Marx officiated at the double ring ceremony held before the altar which was decorated with white gladiolus, stock and greenery.

The bride ,given in marriage by her father, wore a white satin gown with imported French Chantilly lace and styled with a chapel train. Her ballerina length bridal illusion fell from a coronet of pearls and crystal pendants. She carried white baby gladiolus with two large white orchids in the center.

Toni Taylor was maid of honor and wore yellow taffeta brocade with matching headpiece and veil and carried dwarf iris. Cheri Comola and Susie Olano, the bridesmaids, were identically dressed in blue gowns with floating lace back panels. They wore matching blue headpieces and veils and carried bouquets of blue dwarf iris.

Charles Olano was best man. Darold Daly and Jack Thornton of Sacramento were ushers. Wayne Philippi at the organ played wedding music before and during the ceremony.

A reception was held following the ceremony. The newlyweds and bridal party received in the social room of the church, decorated for the occasion. The bride is the daughter of Mr. and Mrs. Patrick Shane. She received her schooling here and will graduate from Tahoe-Truckee High School in June. The bridegroom is the son of Mr. and Mrs. Melvin Thornton. He is an alumnus of Tahoe-Truckee High School.

Both young people are well known in the area, and will make their home in Truckee, following a trip to the Carmel-Monterey area.

Out-of-town guests included the bride's grandmother, Mrs. Marie Shane of Boyes Hot Springs, Calif.; her great-aunt and uncle, Mr. and Mrs. Ray Chapman of Paradise, Calif.; the bridegroom's aunt, Mrs. Eddie Pitts of Reno; his sister, Mrs. Norman Lapp of Reno; his brother and sister-in-law, Mr. and Mrs. Jack Thornton of Sacramento; Mr. and Mrs. James Thornton of Reno; Mr. and Mrs. Orlan Sanders of Reno and Mrs. Mabel Matthews of Sonoma, California.

Sewer Authority

(Continued From Page 1)

and the one most favorably received was the one that brings the North Tahoe disposal down the Truckee river in a huge pipeline to a point east of Truckee where a disposal plant would be installed and the effluent would be percolated into the ground at Dry Lake.

Under the proposed authority, application could be made to the federal government to finance the $17,000,000 project, although the agency would have the power to issue general obligation and revenue bonds.

The authority would be established through the state legislature and any bill for the formation must be in by April 12.

Directors of existing utilities were asked to take action for or against the proposal and forward their recommendation to the Placer County Board of Supervisors.

In the meantime, the present plans for installing a sewer system at Donner Lake is under study by the local board but are still flexible and can be changed to meet the new proposal.

Crose said he had been advised that Representative Harold T. Johnson favors the idea and has indicated his support when the time comes for federal action.

Mr. and Mrs. Ange Besio and Mr. and Mrs. Jack Ellis returned from a trip to Bishop and points south.
